RECORD YOUR DEEDS

By an Act of Assembly of 1893, "All Deeds and Conveyances shall be recorded within ninety days after their execution, or shall be adjudged fraudulent and void against subsequent purchasers."

Also the Act of Assembly of 1899, prescribes a short form of Deeds, and "again requires the recording to make them valid."

It is also a great protection against loss or deed being burned by having them recorded, and costs but a small sum, compared to getting a new deed.

Bring or send them into the Recorder's office, and in a few days they will be returned to you.

TRIANGULAR DEBATE TIED

Gettysburg College, John Hopkins University and Washington and Lee All Lose at their Own Homes while Visiting Teams Win.

The triangular debate between Gettysburg College, Johns Hopkins University and Washington and Lee University Friday evening resulted in a tie, each one of the contestants losing the debate at its own institution so that of the three debates held each college won one and lost one.

The question for debate was "Resolved that the present distribution of powers between the federal and state governments should be revised in pursuance of a general policy of further centralization." The home team in each instance upheld the affirmative and the visitors the negative. The victory of the latter in every debate would seem to indicate a strong sentiment against further centralization.

One of Gettysburg's teams went to Lexington, Virginia, where it met Washington and Lee. A telegram from that place announces that the judges were unanimous in their decision for the Gettysburg side of the question. Messrs. Allebaugh and Krumholtz represented Gettysburg.

At Baltimore Johns Hopkins University met Washington and Lee and the Virginians were given the decision there by Judges Heusler and Bond of the Supreme Bench of Baltimore city, and Mr. Eugene O'Dunne.

At the debate in Brua Chapel Gettysburg was represented by C. M. Davis and E. J. Bowman, music was furnished by the College Orchestra and Dr. Bickle presided. The judges were, Dr. B. O. McIntire, of Dickinson College; Prof. U. S. Steele, principal of the Harrisburg High School, and Dr. W. D. Rorer, principal of the Harrisburg Academy.

All three debates were exceptionally strong and showed remarkable ability in the collegians taking part. Gettysburg's showing against the strong southern universities is very gratifying.

VICTORY FOR GETTYSBURG

Gettysburg College won a decisive victory over St. John's, Annapolis, at tennis Friday afternoon, taking both matches in doubles and three of the four in singles. Diehl played brilliantly for Gettysburg in both matches in which he was entered. Lentz saved St. John's from a shut out by winning his match in singles against Hoshour. The match in doubles between Baughman and Fritchey, of Gettysburg, and Reimburg and Parran, St. John's, was finely contested and the most interesting event of the series. Summary:

Doubles—Hoshour and Diehl, Gettysburg, won from Johnson and Lentz, St. John's, 6-2; 6-2; Baughman and Fritchey, Gettysburg, won from Reimburg and Parran, St. John's, 6-2, 3-6, 8-6.

Singles—Lentz, St. John's, won from Hoshour, Gettysburg, 6-3, 6-4; Diehl, Gettysburg, won from Johnson, St. John's, 6-1, 6-4; Fritchey, Gettysburg, won from Reimburg, St. John's, 6-4, 6-1; Baughman, Gettysburg, won from Stanley, St. John's, 6-0, 6-2.

WON ORATORICAL CONTEST

S. Frank Snyder of Gettysburg College won the first prize of fifty dollars in the oratorical contest of the Inter-collegiate Prohibition Association composed of leagues from eight Pennsylvania Colleges at Annville Friday. James C. McConnel of Grove City College, won second prize of ten dollars.

The following institutions were represented: Susquehanna, Gettysburg, Juniata, Albright, Geneva, Grove City, Lebanon Valley and Rutgers.

Next year's oratorical contest and convention will be held at Geneva College Beaver Falls.

WILL PLANT BROOM CORN

Some farmers of York county will plant broom corn this spring in large quantities in view of the prices which are being paid for it by the broom factories. The crop in the West, the source of the most of the product, has been a failure for three seasons and Eastern growers could make a profit in the crops, being nearer the manufacturing where it is in demand.

THOSE fruit growers who wish to do thorough spraying and save money will do well to write to the Department of Agriculture, Washington, D. C., for circular No. 54 of the Bureau of Plant Industry and then buy the necessary materials from Biglerville Warehouse Company, Biglerville, Pa.

FIRE THREATENS MT. ST. MARY'S

Forest Fire in Mountain Back of Emmitsburg Institution Causes Alarm. Students Held in Readiness to Fight Flames.

A big fire on the mountain in the vicinity of Carricks Knob caused much anxiety at Mount St. Mary's College, Emmitsburg, Friday afternoon. A force of men from the college was sent to fight the flames and the student body was held in readiness for further assistance.

The fire broke out late Thursday night and involved a large area of timber land. By daylight it had spread over a considerable portion of the mountain side and assumed a dangerous aspect. At noon the flames could be plainly seen from the college, and as the buildings were directly in the path of the fire an organized force was sent to the assistance of those already on the scene. By this time the fire had gained such headway and its path had become so broad that the fire fighters fell back and started a new fire closer to the college. After fighting fire with fire nearly all the afternoon it was finally controlled, although men were kept on the scene all night.

Much valuable timber land was burned over, entailing considerable loss.

Miss Genevieve Ramer, of Gettysburg, was bride's maid, and Mr. Romanus Florence, brother of the bride was groomsmen. The bride was attired in a gown of white satin with train, wore a veil, and carried a handsome bouquet of white carnations. The bride's maid was dressed in pink silk. Rev. J. O. Hayden, C. M., pastor, performed the ceremony.

FARMERS BUSY IN THE FIELDS

Three Weeks behind Schedule Time with their Spring Work. Potatoes Planted. Ploughing for Corn. Wheat Spotted.

Farmers throughout the county are putting in busy days with their spring work and there are few idle moments for the agriculturists of this section.

Everything is about three weeks late and all are trying to make up for the lost time occasioned by the late spring. Not more than one fifth are reported to have planted their oats and everything else is correspondingly behind time.

A few of the farmers are ploughing for corn. Practically all of the potatoes are planted and the final work of spraying is now being completed. It is getting late for this work and all are hurrying to get it finished.

The report of the probable wheat crop in the county is not favorable and the knowing ones say that a half crop is all that may be expected. Later developments may increase this considerably, however. The condition of the fields is called "spotted," some portions being very much better than others. There are a few fields—a very small proportion—in which the wheat is at its best and a bumper crop will be realized from them.

The busy season for the ruralites is keeping them at home and the number of the country people visiting the towns these days is exceptionally low.

TROLLEY EXTENSION TO OPEN

Work on the trolley extension from Pen Mar to Highfield is progressing rapidly with the excellent weather of the past week. It is the belief of General Manager R. D. Sefton that the road will be completed and in operation by Sunday, May 7. The work of ballasting is almost completed. With good weather it can be finished next week. About 100 perches of stone are crushed each day and put on the road bed. Altogether more than 2000 cubic yards of ballast have been put on the road. With the ballasting finished it will be the work of but a few days to line up the track and get things in readiness.

FIRE FIGHTERS HAVE A PARADE

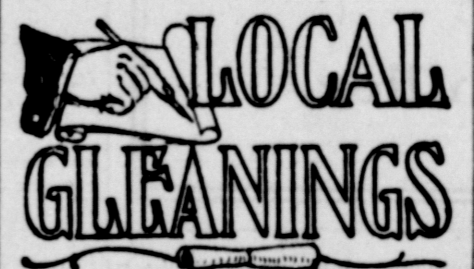

Gettysburg Fire Department Headed by Officials and the Band, March through Streets of Town and Present Good Appearance.

Gettysburg's firemen in full dress uniform paraded the streets of town Friday for the first time in a number of years and the many people who witnessed the event were more than proud of the appearance of the company.

Officers Shealer and Stroup led the parade, the Citizens' Band following. The firemen left the engine house shortly before seven o'clock and marched for a half hour over the principal streets. Chief Wisotzky, President Holtzworth and Asst. Chief Hardy led the fire ladders and the engine and truck brought up the rear of the parade.

Gettysburg's home defenders looked so well that a number of spectators were heard to suggest the numerous prizes they would bring home if they were to attend nearby conventions.

During the evening the band played at the engine house where the food sale was in progress. People of town were very liberal in contributing to the sale and many good things were offered while tonight will see fully as good a line and at fully as reasonable figures.

REVISE COMMANDMENTS

Rev. Dr. Douglas Would Change Them
to Fit Present Needs.

Washington, April 29.—Rev. Dr. George W. Douglas, canon of the Cathedral of St. John the Divine, New York city, in speaking before the congress of the Protestant Episcopal church here, urged a revision of the Ten Commandments as now contained in the Episcopal prayer book.

Dr. Douglas would have them changed in such a way that present day congregations would not be wearied with oxen and asses and slaves which they do not possess.

Dr. Douglas also would have the prayer book psalter altered in such a way that it would be possible to glide over in silence objectionable passages in the psalms. Also, when the prayer book is being revised he would have the rubrics give the clergy sufficient latitude at least to enable them to pray on occasion extempore in church without appearing to be either "ram-pant or radical."

BOY BURNED AT STAKE

Mimic Indian War Dance Ends In the
Victim's Death.

Boston, April 29.—Bound and tied to a stake while his little playmates executed a mimic Indian war dance and "tortured" him with a lighted candle, Max Tallebaum, aged five years, of Roxbury, turned play into reality and was "burned at the stake."

His clothing caught fire from the candle, causing injuries which resulted in his death later. His companions ran away when they saw the boy's clothing flaming up, and he was released from the stake by two little girls, who carried him home.

GIBBONS SELECTED AS ANNAPOLIS HEAD

He Will Succeed Captain Bowyer
on May 15.

Washington, April 29.—Captain John H. Gibbons, now on duty as a member of the general board of the navy, will be detailed by Secretary Meyer as superintendent of the naval academy at Annapolis on May 15, succeeding Captain John M. Bowyer, who will be relieved because of ill health. Captain Bowyer has written a letter to Secretary Meyer saying that he wishes to be relieved on that date.

Secretary Meyer denied that the relief of Captain Bowyer was an outcome of the recent affront to Miss Mary H. Beers, daughter of Professor H. A. Beers, of Yale university, for which Captain Bowyer apologized to Miss Beers and her father.

It was explained that the only reason for the change was Captain Bowyer's physical condition, which made it necessary for him to give up his duties at the academy immediately. He feels, he says, that it would be dangerous for him to remain at the academy until the end of the present scholastic year, as the work and social events incident to the closing of the year might endanger his life.

TAKES RAP AT FREE LIST BILL

Congressmen Moore and Prince
Assail Measure.

ANNEXATION TALK AGAIN

Illinois Representative Says Measure
Should Be Labeled "Farmers' Fake
Bill" and Sees Alliance With Canada
In Reciprocity.

Washington, April 29.—Representative Moore, of Philadelphia, and Representative Prince, of Illinois, both Republicans, bitterly attacked the "farmers' free list bill" in the house.

Incidentally Mr. Moore paid his respects to the Canadian reciprocity bill, which he said he had opposed. He would continue to oppose it, he declared, as a step in the direction of free trade.

If the policy started by the enactment of the Canadian reciprocity agreement were pursued, as it was evident that the Democrats intended to pursue it, the result, the Philadelphia contingent, would ultimately be free trade. That it spelled free trade, Mr. Moore said, was shown by the fact that it was immediately followed by the proposed free list bill.

This measure, he declared, was against the farmer and the artisan, the industrial worker in every line of activity. Localizing the effect of these two measures, Mr. Moore proceeded to show how great was the importance of the agricultural as well as the industrial interests of Pennsylvania.

The entire industrial fabric of the nation, he said, would be seriously affected if the mills were closed. The industrial workers in the cities could not buy from the farmer if they had not the wage with which to pay him. If, therefore, the farmer proposes to transfer his market, the one in which he purchases, to foreign countries, the working men in the cities would be without the power to buy from the farmer. Hence, he argued, by the passage of these two measures there would be depression all along the line of commercial activity.

Representative Prince, Republican, of Illinois, incidental to a tariff speech, attacked the Canadian reciprocity bill already passed by the house and criticized the Democrats for their appointment of numerous investigating committees.

"This ought to be called a session of congress for the investigation of everything," said Mr. Prince. "The various committees and commissions are circling around investigating each other and doing little else."

Mr. Prince declared that the farmers had been "sold out" and that the reciprocity bill was the "worst bargain ever driven by one nation with another." The Democratic "farmers' free list," said Mr. Prince, ought to be labeled the "farmers' fake bill."

Mr. Prince declared reciprocity and partial free trade with Canada to be the first step toward annexation. He said that Speaker Clark had never denied the annexation sentiments expressed in the last session.

"It is the history of this nation," said Mr. Prince, "that we first Americanize a territory, then annex it."

RAPS TAFT AND HITCHCOCK

Democrat Charges Postmaster General
With Manipulating Political Machine.

Washington, April 29.—Postmaster General Hitchcock was charged by Representative Cullup, Democrat, of Indiana, in the house with being the "creator and the presiding genius of a powerful political machine, organized within the postoffice department."

Mr. Cullup also declared that the power given to the president to appoint government employees was "too dangerous to be confined to any one man."

Railroad Strike Rumor.

Bethlehem, Pa., April 29.—A rumor was current in railroad circles here, which came from high authority among the Railroad Brotherhood members on the Lehigh & New England railroad, that a strike is inevitable unless the company recedes from its present position. This position was taken at a recent conference between employees and officials when the former's demands were refused.

Earle Loses His "Affinity."

New York, April 29.—Justice Newburger, in the supreme court, signed the final judgment annulling the marriage of Julia Kuttner and Ferdinand Pinney Earle, the artist, whose matrimonial experiences added the word "affinity" to English slang. Miss Kuttner was Earle's second wife, the artist marrying her after his first wife obtained a divorce in France.

PRINCESS TROUBETSKOY.

PRINCESS NOT ALARMED

Troubetzkoy Says Wife Isn't Worried
by Chaloner's Threat.

New York, April 29.—The threat of John Armstrong Chaloner that unless the Princess Troubetzkoy relinquishes her dower rights and abandons the claim that she loaned him \$20,000 he will resist in the courts any further payment of alimony did not create a flutter of alarm at the Troubetzkoy studio in Thirty-ninth street.

"These affairs are so crude, so gross, that a gentleman cannot discuss them," the princess said. "I am sure the princess is not alarmed, and if she were I am equally sure she would not tell you so. How can you expect a woman devoted to her art and unused to worldly affairs to be to the world matters of so personal a nature? But I am sure the princess is not alarmed."

M'MANIGAL CUTS LOOSE FROM LABOR LEADERS

Confessed Dynamiter Refuses
to See Their Lawyers.

Los Angeles, Cal., April 29.—"I don't want to see you or Judge Hilton or any other attorney connected with the labor movement. We will let things take their course."

With these words addressed to Attorney Job Harriman, Ortie E. McManigal, who has made several confessions of participating in dynamiting plots and has implicated James B. McNamara and J. J. McNamara in the dynamiting of the Los Angeles Times building, indicated his attitude toward the men who are his co-defendants. It is evident that he is going to seek advice from Burns and be guided by what the detective tells him to do.

That he will be a star witness for the prosecution is a foregone conclusion. Widely published "confessions" sent out of Los Angeles were merely faked statements into which had been welded various circumstances related by McManigal in Chicago. District Attorney Fredericks reiterated that not one word of what was taken down when McManigal made his confession had been given out and that none would be.

Detective Burns telegraphed to District Attorney Fredericks a denial that McManigal has been in his pay as an informer. While admitting he knew the Llewellyn Iron works plant was to be dynamited, he says he had no arrangement with McManigal to do that job.

HORSE FINDS WOMAN'S BODY

Mrs. C. N. Turner Was Murdered in Woods.

BEATEN TO DEATH WITH CLUB

Police of Lakewood, N. J., Are Searching For Colored Man Who Was Seen to Follow Her.

Lakewood, N. J., April 29.—Arnold Turner was riding Lady, the pet family horse, through the woods, looking for his aunt, Mrs. Charles N. Turner, who had disappeared from her home here on Wednesday.

He could not understand why Lady insisted upon turning off the path and taking to the woods on the side of the road. All efforts to lead the horse back into the path were unavailing, so the boy let her have her way, and almost before he knew it they had broken through the underbrush and came upon a huddled heap on the ground, which the boy knew was his aunt. Too frightened to yell, he rode to the nearest house, about 200 yards, and told the neighbors that Mrs. Turner had been found and to hurry and get a doctor.

The woman was lying face downward on the ground, and nearly a club, seven feet long, with the bark knocked off in spots, told the rest of the story. The officials are hunting for a colored man whom they suspect did the trick.

Mrs. Turner left her home on Wednesday afternoon to do an errand, but the family didn't let the authorities know that she was gone until Friday afternoon, and two or three hours afterward the nephew found the body. One woman says she saw Mrs. Turner about 3 o'clock that day walking in the direction of her home. That was the last seen of her alive.

Was Killed With Club.

The body was found off the beaten track, and it was evident that there had been a struggle from the condition of the woman, though the ground around showed no evidence of it. The theory is that the body was carried to where it was found, although the club with which the murder was apparently done was found fifteen feet away.

Dr. W. G. Schaeffer's examination showed that there was an open wound in the back of the head, and at the upper end of the left ear a scalp wound two inches long, exposing the bone, and filled with dirt. When the body was turned over it was found that the face was covered with dirt, and when this was removed it was found that the assailant had struck Mrs. Turner a blow in the face which had flattened her nose back against the face. The lips were tightly closed and the teeth clenched. The whole frontal region of the skull was fractured. Her necktie had been torn off, while her waist was torn from the neckband to the last line, and the corset cover torn from the yoke nearly to the waist, exposing the flesh. There was no evidence of an assault.

Prosecutor T. J. Brown immediately started to look into the case himself. He got the description of a colored man who is well known in Lakewood, and who was said to have stopped at a nearby house to the scene of the crime shortly after Mrs. Turner had passed there. After getting a drink of water the colored man took the same path Mrs. Turner had taken.

Shortly after the word became noised about Lakewood that the body had been found this man was seen at the station platform with a dress suitcase in hand. He started up the tracks toward Farmingdale, a village eight miles away, and the prosecutor went after him.

Mrs. Turner was a woman about forty years old and had a large number of friends in Lakewood. She was a daughter of the late William Parmentier, one of the pioneers in the resort, and a sister of Charles J. Parmentier, treasurer of the Lakewood Trust company. Her home life was declared by all to have been happy, and no one can suggest any reason for the murder.

BRITISH FOR PEACE WITH U. S.

All Political Leaders Favor Taft's Plan.

WOULD NOT MEAN ALLIANCE

Anglo-American Arbitration Indorsed by a Notable Meeting Held in London.

London, April 29.—What Premier Asquith described as "this venerable Guild Hall," without whose seal of approval no popular movement in London is really launched, witnessed a meeting for the adoption of resolutions pledging the city to the support of Anglo-American complete arbitration.

On the right of the lord mayor, who presided and held the center of a temporary stage, was Prime Minister Asquith and on his left A. J. Balfour, leader of the opposition in the commons.

Massed about the mayor were dignitaries of the church and many men prominent in other walks of life.

Mr. Asquith and Mr. Balfour spoke eloquently of the treaty proposed by President Taft, declaring that it would mark a new era in civilization, but both pointedly disclaimed a pact between Great Britain and the United States for submission of all differences to arbitration would mean an alliance.

Mr. Balfour warned his hearers, than whom he said none in the world felt more the burden of preparing for war, that the treaty would not mean immediate reduction of armaments.

Speech of the Premier.

Premier Asquith said: "The unique situation which we have met to recognize and welcome has not been organized or engineered by the apparatus of diplomacy. The seed which the president of the United States cast fell on ground prepared to receive it."

"That which a few years ago, even a few months ago, might have been regarded as the dream of idealists, has not only passed into the domain of practical statesmanship, but has become the settled purpose of two great democracies."

The profound significance of the new departure is that, between Great Britain and the United States, whatever the gravity of the issue and the magnitude of the interests involved, whatever the poignancy of the feelings it arouses, there will be a definite abandonment of war as a possible solution and the substitution of argument for force, and the supersession by judicial methods of the old ordeal of battle."

No Menace to Others Implied.

After declaring that this movement implied no menace to the rest of mankind and did not provide for an Anglo-American alliance, aggressive or defensive, the premier continued: "But we may hope and believe that other things will follow. It is not for us to dictate or to preach to other nations, but if the United States and Great Britain renounce war, a step will be taken of immeasurable and incomprehensible significance in the onward progress of humanity."

Mr. Asquith then moved the resolution pledging the support of citizens of London to the proposed treaty.

The resolution was received with tremendous applause, which continued until Mr. Balfour rose to second it.

The opposition leader said that Anglo-American arbitration seemed nearer fruition now than ever before in history.

A NATIONAL ROAD

Planned as Memorial to Mother of Washington.

Washington, April 29.—A national highway from the national capital to Fredericksburg, Va., by way of Mount Vernon, to be known as the "Mother Washington Memorial Highway," in memory and honor of the mother of the Father of His Country, is proposed by a bill introduced in the house by Representative Jones, of Virginia. The sum of \$100,000 is appropriated for the purpose.

Man Is Crushed to Pulp.

South Bethlehem, Pa., April 29.—Adam Schnell, a twenty-year-old machinist at the Bethlehem Steel works, had every bone in his body broken and crushed when a piece of armor plate, weighing thirty tons, which he was planing, fell upon him. The armor is for one of the new Dreadnoughts which the Bethlehem Steel company is building for the Argentine Republic.

Senate Hearings on Reciprocity.

Representatives of the farming and wood pulp and paper interests will have an opportunity to present their views. Senator Penrose, chairman of the committee, expects that the bill will be reported without amendment.

\$8000 Mail Sack Missing.

Good Work

Done Daily in Gettysburg. Many Citizens Tell of It.

Nearly every reader has heard of Doan's Kidney Pills. Their good work in Gettysburg still continues, and our citizens are constantly adding endorsement by public testimony. No better proof of merit can be had than the experience of friends and neighbors. Read this case:

Harry J. Tawney, 9 Steinwehr Ave., Gettysburg, Pa., says: "We publicly endorsed Doan's Kidney Pills two years ago and at this time willingly speak in their praise again. My back ached almost constantly and at times I could hardly get around. The kidney secretions gave me much annoyance by their irregularity in passage and I was lame and stiff. Seeing Doan's Kidney Pills advertised, I procured a box at the People's Drug Store and they positively and promptly cured me. I have been in good health ever since. I know of a number of other people who have taken Doan's Kidney Pills and benefit has always been received."

CLUB FRETS CONGRESSMEN

New Members Annoyed by Way Applications Are Scrutinized.

Washington, April 29.—New members of congress who have applied for membership in the exclusive Metropolitan club are much annoyed because the board of governors seems to be exercising more than usual care in passing upon their eligibility.

They point to the blackballing of Senator Clarence W. Watson, Democrat, of West Virginia, and the withdrawal of Representative Martin W. Littleton's name.

This is the first time of actual record when a United States senator has been refused admission to the club roll. Only a few members of the senate are members.

Uphold Lease of Northern Central.

Baltimore, April 29.—The Maryland public service commission decided the long pending Northern Central lease case in favor of the so-called Moore commission. The forest service is conducting an experiment in the foothills of southern California that is bound to be followed closely by all who are interested in the reclamation or use of millions of acres of rough and inaccessible desert land. Briefly, the experiment is the setting out in representative localities of 100,000 eucalyptus trees, for which the ground will not be prepared beyond the digging of a hole two feet across and fifteen inches deep. No attempt will be made to cultivate the little trees nor to keep the chaparral from growing about them, nor will there be any way in which they can be irrigated.

Why Cough

Ask your doctor if all coughs are necessary. If not, then why cough? Ask him about Ayer's Cherry Pectoral.

Stop coughing! Coughing rasps and tears. Stop it! Coughing prepares the throat and lungs for more trouble. Stop it! There is nothing so bad for a cough as coughing. Stop it! Ayer's Cherry Pectoral is a regular doctor's medicine for coughs and colds.

AFTER GRIP

Look Out for Trouble

The after-effects of the Grip are apt to be serious but a normal healthy condition may be restored in a surprisingly short time by Vinol.

Watertown, Wis.—"After a severe attack of the Grippe my system was in a very weakened, nervous and run-down condition. I began taking Vinol with the very best results and in a short time I began to feel like an entirely different person and I am better and stronger than I have been for years." Adelaide Gamm. (We guarantee this testimonial to be genuine.)

We have never sold in our store such a valuable strength creator and health restorer for the convalescent, the weak and run down as Vinol, and we ask people in this vicinity to try a bottle of Vinol with the understanding that their money will be returned if it does not do all we claim for it. IN MEMORIAM

In sad but loving remembrance of Opal Lady Fohl who departed this life April 29th 1910.

Just one year ago today, Since our dear Opal went away To join the angel band on high And waits to greet us in the sky.

Just one year ago today, Dear Opal closed her eyes in death And passed away so sweetly To live with Jesus and the blest.

Call to see this line of REFRIGERATORS

Chas. S. Mumper, Co.

We want to see you at our store on May 1st and 2nd. The occasion is very special. A representative of one of the leading manufacturers of wood decorating material will be with us, with a full line of samples to show our visitors.

This is not a sale—but a display of beautiful colorings and finishings for wood work and floors.

It is your opportunity to get ideas; also to learn how the red-tape of old methods of wood finishing may be cut and the process once so mysterious, be so simplified as to enable every one to do

their own decorating at very slight expense.

You can learn to put a new Mission Finish (supplying the grain as well as color) on the wood work of a room without the expense of taking off the old paint or varnish—and treat old furniture to match.

You can learn how to make soft wood floors equal to hard wood in looks and wear.

You can learn how to make your hard wood floors water-proof, heel-proof, scratch-proof.

You can save old furniture from the second hand man. All the above and much more you can learn; it is absolutely free; you need not feel obliged to spend any money.

SEWING MACHINES.

After many years experience in the Sewing Machine business we believe we now have the best two lines made. The only main difference is in the "Shuttles." The WHITE, with the Rotary Shuttle, and the FREE, with the vibrating or long shuttle.

Some people firmly believe the former action is the better while others swear by the "Long Shuttle"

Let us demonstrate to you the one of YOUR CHOICE.
